Youth Employment Service – Employer Agreement

Harrison Youth Council (HYC) is a community prevention agency which serves families and students within the Harrison School District. The Mission of Harrison Youth Council is the prevention of substance abuse.

Current research demonstrates that youth engaged in positive, productive pursuits are considerably less likely to become involved with alcohol and other substances. The HYC Youth Employment Service provides training in job readiness, interviewing skills and resume writing. Additionally, the Youth Employment Service assists students age 14 and older to find part-time and summer employment by connecting students with local residents and businesses with appropriate, available positions. Students interested in applying for available jobs speak directly with the Youth Employment Coordinator, who will then provide them with the contact information for the potential employer

In using the Youth Employment Service of the Harrison Youth Council, I understand that:

1. Youth Employment Service acts solely as a liaison between students and potential employers.
2. Youth Employment Service is not an employer of these students.
3. Students who contact the Youth Employment Service have not been vetted by the Harrison Youth Council or the Youth Employment Service.
4. The Youth Employment Service does not perform reference checks on job applicants.
5. It is the responsibility of each participating employer to determine the need to investigate the background of candidates referred by the Youth Employment Service.
6. My signature acknowledges that the Youth Employment Service does not guarantee safety and I voluntarily waive, release, and hold harmless HYC, its board, employees, agents, and its volunteers from all claims, accidents, injuries (including loss of property), or death that result from my participation in the YES employment program.
